### Targeted Security Alert

#### Multiple Vulnerabilities in Apple Products

**Original Issue Date:** August 14, 2015

**Severity Rating:** High

**Description:**

Multiple vulnerabilities have been identified in Apple products which can be exploited by remote attackers to cause execution of arbitrary code, gain knowledge of sensitive information, take full control of the affected systems and bypass security restrictions. The vulnerabilities reported are as follows:

Vulnerability	Description	Affected Software	Workarounds
<b>Multiple Vulnerabilities Apple OS X</b>  <a href="#">CVE-2014-7844</a> <a href="#">CVE-2015-3757</a> <a href="#">CVE-2015-3760</a> <a href="#">CVE-2015-3761</a> <a href="#">CVE-2015-3762</a> <a href="#">CVE-2015-3764</a> <a href="#">CVE-2015-3765</a>  <b>Other CVE Info is available on:</b> <a href="http://www.securitytracker.com/id/1033276">http://www.securitytracker.com/id/1033276</a>	Multiple vulnerabilities were reported in Apple OS X. Successful exploitation of the vulnerabilities can allow remote attackers to cause execution of arbitrary code, cause denial of service, and modify files, gain system privileges, and gain knowledge of sensitive information.	Apple OS X versions 10.10 - 10.10.4	Users are advised to apply updates. More information about the updates is available in:  <a href="https://support.apple.com/en-us/HT205031">https://support.apple.com/en-us/HT205031</a>
<b>Multiple vulnerabilities in Apple iOS</b>  <b>CVE Info:</b> <a href="#">CVE-2015-3756</a> <a href="#">CVE-2015-3758</a> <a href="#">CVE-2015-3759</a> <a href="#">CVE-2015-3763</a>	Multiple vulnerabilities were reported in Apple iOS. These vulnerabilities can allow remote attackers to cause execution of arbitrary code, cause denial of service conditions on the target system, bypass security restrictions, gain elevated privileges and obtain potentially sensitive information on the target system.	Apple iOS version prior to 8.4.1	Users are advised to apply updates. More information about the updates is available in:  <a href="http://support.apple.com/en-us/HT205030">http://support.apple.com/en-us/HT205030</a>

<p><b>Other CVE info is available on:</b>  <a href="http://www.securitytracker.com/id/1033275">http://www.securitytracker.com/id/1033275</a></p>			
<p><b>Multiple vulnerabilities in Apple Safari</b></p> <p><b>CVE Info:</b>  <a href="#">CVE-2015-3729</a>  <a href="#">CVE-2015-3730</a>  <a href="#">CVE-2015-3731</a>  <a href="#">CVE-2015-3732</a></p> <p><b>Other CVE Info is available on:</b>  <a href="http://www.securitytracker.com/id/1033275">http://www.securitytracker.com/id/1033275</a></p>	<p>Multiple vulnerabilities have been reported in Apple Safari. Successful exploitation of the vulnerabilities can allow remote attackers to cause execution of arbitrary code, bypass security controls, obtain sensitive information, spoof user interface and spoof URLs.</p>	<p>Apple Safari versions prior to versions 6.2.8, 7.1.8, 8.0.8</p>	<p>Users are advised to apply updates. More information about the updates is available in:</p> <p><a href="https://support.apple.com/en-us/HT205033">https://support.apple.com/en-us/HT205033</a></p>
