CERT-MU Security Alert

Date of Issue: 17 April 2026

Phishing attempts impersonating Mauritius Telecom (Lucky Draw)

Severity Level: High

Description:

The Computer Emergency Response Team of Mauritius (CERT-MU) wishes to inform the public of an ongoing phishing campaign targeting individuals in Mauritius by impersonating Mauritius Telecom.

It has been observed that the campaign typically begins with an unsolicited audio call made via **Google Meet**, using a Gmail account “*mauritiustelecomeluckydraw@gmail.com*”. It is to be noted that the aim behind such campaigns is to convince the victim that he/she has won a prize or has been selected as part of a promotional offer.

The scammers subsequently attempt to deceive individuals into disclosing sensitive information such as personal details, banking information, or One-Time Passwords (OTPs), or may request that victims click on malicious links or install unknown applications.

The general public is strongly advised to remain vigilant against such campaigns and to adopt the following precautionary measures:

- Do not trust unsolicited calls or messages claiming prize winnings or promotional rewards
- Do not share personal, financial, or authentication information such as OTPs or passwords
- Avoid clicking on suspicious links or downloading applications from unknown sources
- Verify any such offers directly with **Mauritius Telecom** through official communication channels
- Immediately terminate any suspicious communication

Individuals who receive such fraudulent calls or messages are advised to report the incident on the Mauritian Cybercrime Online Reporting System (MAUCORS+ - <http://maucors.govmu.org/>).
